

Vitamin B12 deficiency in clinical practice

“Doctor, you gave me my life back!”

Dr Joseph Chandy (Kayyalackakom)

Medical Practitioner 1966-2015 (49 years)

in the National Health Service, UK

Written in collaboration with Hugo Minney Ph.D.

Chief Executive – B12 Deficiency Support Group

© 2019 Joseph Chandy (Kayyalackackom)

The hymn of self-dedication

*I, the Lord of sea and sky,
I have heard my people cry.
All who dwell in dark and sin my hand will save.
I, who made the stars of night,
I will make their darkness bright.
Who will bear my light to them?
Whom shall I send?*

*Here I am, Lord. Is it I, Lord?
I have heard you calling in the night.
I will go, Lord, if you lead me.
I will hold your people in my heart.*

*I, the Lord of snow and rain,
I have borne my people's pain.
I have wept for love of them.
They turn away.*

*I will break their hearts of stone,
Give them hearts for love alone.
I will speak my word to them.
Whom shall I send?*

*I, the Lord of wind of flame,
I will tend the poor and lame.
I will set a feast for them.
My hand will save.*

*Finest bread I will provide
'Til their hearts be satisfied.
I will give my life to them.
Whom shall I send?*

From Dan Schutte's hymn *Here I am, Lord* © 1981 Daniel L. Schutte and New Dawn Music – based on
Isaiah 6 and 1 Samuel 3.

Table of Contents

Table of Contents.....	iv
List of Tables	viii
List of Figures	viii
Patient brief case studies	ix
List of Charts	x
List of Boxes	x
Recommendation to readers by Professor David Smith.....	xi
Dedication	xii
Preface	xiii
Acknowledgements	xiv
Author's Note	xv
Introduction	1
Part 1: Dr Joseph Chandy: journey to discovery	2
Part 2: Ups and downs	8
Part 3: Sharing the knowledge widely	15
Importance of holistic care: Mother Teresa's influence.....	17
What B12 therapy means to our patients	19
Chapter 1 Vitamin B12: a profile.....	23
1.1 Vitamin B12 characteristics.....	25
1.2 Vitamin B12 - history of discovery	31
1.3 Deficiency prevalence and manifestation.....	33
1.4 Illness groups and conditions linked to B12 deficiency	38
1.5 Common diagnoses that respond well to B12 supplementation	40
Chapter 2 How to diagnose vitamin B12 deficiency.....	43
Message from a patient to the world	43
2.1 Background to diagnosis of vitamin B12 deficiency	45
2.2 Wide-ranging effects of B12 deficiency	52
2.3 Our diagnostic method	55
Chapter 3 Treating B12 deficiency	67
3.1 Vitamin B12-treatment regimes	69
3.2 A note on safety	69
3.3 Different types of Vitamin B12	70
3.4 When to start B12 therapy	73
3.5 How much and how often?.....	73
3.6 Dangers of withdrawing treatment	78
3.7 Body stores and daily losses	78

3.8	How long will it take for symptoms to recover?	81
3.9	Reversing-out syndrome	81
3.10	Other considerations	82
3.11	Vitamin B12 as a prophylactic measure to avoid deficiency	83
3.12	Shinwell Medical Practice Patient Surveys on vitamin B12 therapy.....	83
Chapter 4	Megaloblastic anaemia – not the only way to diagnose B12 deficiency.....	87
4.1	B12 deficiency and haematopoiesis (formation of blood cells).....	89
4.2	What is megaloblastic anaemia?	89
4.3	Delays in diagnosis via the “Addisonian criteria”	92
4.4	The importance of early diagnosis	97
4.5	Vitamin B12 interactions with folate	98
4.6	Risk of other conditions and associated autoimmune disease.....	101
Chapter 5	Vitamin B12 in pregnancy – preparing for a healthy child	103
5.1	Advance preparation for a healthy pregnancy	105
5.2	Birth defect preventive programme: vitamin B12 supplementation	106
5.3	Vitamin B12 and fertility	106
5.4	Considerations during pregnancy: the myth of haemodilution.....	108
5.5	Identifying the non-anaemic B12-deficient mother	109
5.6	Vegetarian/vegan mothers and vitamin B12 deficiency.....	109
5.7	Neural tube defects: the roles of folic acid and vitamin B12.....	110
5.8	Embryo and neonate B12-deficiency manifestation	114
5.9	Clinical symptoms of vitamin B12 deficiency in infants and children.....	115
5.10	Inheriting the genes for vitamin B12 deficiency	117
Chapter 6	Neurological disorders – SACD/MS-like presentation.....	133
6.1	Vitamin B12 deficiency and neurological disorders.....	135
6.2	SACD: a “forgotten” illness	135
6.3	SACD: difficulty of diagnosis by traditional means	136
6.4	Examples of misdiagnosis of SACD.....	136
6.5	Misdiagnosis as MS (Multiple Sclerosis)	137
6.6	Comparison of symptoms: SACD and MS	139
6.7	“Window of opportunity” for treatment	141
6.8	Patterns emerging from our cases.....	141
6.9	Genetic link in MS	142
Chapter 7	Autoimmune glandular disorders, with special reference to APS and hypoadrenalism (Addison’s disease)	163
	SECTION 1 Autoimmune glandular disorders and vitamin B12 deficiency.....	165
7.1	Vitamin B12 deficiency – an underlying cause?.....	166
7.2	Need to screen for autoimmune glandular conditions in B12-deficient patients	166

7.3	Autoimmune Polyglandular Syndrome	166
7.4	Treatment of APS and importance of early detection	168
7.5	Vitamin B12 – the link with autoimmunity	169
7.6	Overview: glands, hormonal cycles and the HPA axis	170
	SECTION 2: APS component illnesses: Hypoadrenalism	172
7.7	Forms of hypoadrenalism	172
7.8	SECTION 3: Other APS component illnesses	192
Chapter 8	Neuropsychiatric disorders, including dementia – prevention is better than cure .197	
8.1	Vitamin B12 deficiency and neuropsychiatric symptoms – an overview	199
8.2	Historic evidence.....	199
8.3	Range of neuropsychiatric symptoms.....	199
8.4	Vitamin B12 deficiency and the human brain.....	200
8.5	Categories of neuropsychiatric symptoms	201
8.6	Withdrawal of vitamin-B12 therapy may lead to psychosis	202
8.7	What is dementia?	203
8.8	The connection between vitamin B12 deficiency and dementia	204
8.9	Links with other conditions.....	206
8.10	Is dementia inherited?	208
8.11	Nutrition and lifestyle	208
8.12	Treating dementia and other neuropsychiatric conditions	208
Chapter 9	Vitamin B12 and cancer prevention	211
9.1	Cancer worldwide prevalence	213
9.2	Some causes of cancer.....	213
9.3	Cancer treatment.....	214
9.4	Cancer prevention.....	216
9.5	Vitamin B12, folate and correct formation of DNA	219
9.6	Aberrant DNA methylation in cancer.....	220
9.7	Dual role of folate and folic acid in cancer development.....	220
9.8	Tissue-specific cancers and vitamin B12.....	221
9.9	Critical time-windows in cancer prevention	224
	Documents Cited	226
	Index	263
	Appendix 1: Protocol for excluding B12 deficiency (Megaloblastic anaemia/Pernicious anaemia) from adult and child patient presentation.....	267
	Relevance	267
	Presenting Symptoms	267
	Beginning a diagnosis – presenting to GP/ Nurse.....	267
	Confirming B12 deficiency	267

Prophylaxis of vitamin B12 deficiency	268
Other Actions to Take	268
Mother & Foetus, Neonate, Child - B12 deficiency: prevention, early diagnosis and treatment ..	268
Child 1 month – 13 years	268
Deciding how to treat B12 deficiency	269
Treatment regimes:	269
Cessation of treatment	270
One Minute Health Check – B12 Deficiency signs and symptoms.....	271
Decision Tree to diagnose / exclude B12 deficiency.....	272
B12 Consent Form.....	273
Vitamin B12 deficiency and direct or indirect causation of disease.....	274
Haematological	274
Psychiatric	274
Gastro-intestinal	274
Cardio-Vascular / Respiratory Systems.....	274
ENT (Ear, nose & throat)	274
Endocrine / Immune systems	274
Neurological	274

Patient brief case studies

Case 2-1 Neuropsychiatric symptoms and alopecia	54
Case 2-2 Lupus, rheumatoid arthritis and Raynaud’s disease	55
Case 3-1 Benefit of therapeutic trial in a case of Bell’s Palsy	73
Case 3-2 Example of patient needing unusually high number of loading doses	74
Case 3-3 Oral treatment inadequate: injections needed	75
Case 4-1 Gastrointestinal symptoms and speech difficulties	96
Case 4-2 Difficulty swallowing, weight loss, fatigue and depression.....	97
Case 5-1 Teenage female: delayed periods	106
Case 5-2 Cardiomyopathy and mitral-aortic defect in pregnant mother	107
Case 5-3 Vital role of vitamin B12 and folic acid in fertility.....	107
Case 5-4 Vegetarian mother from London	109
Case 5-5 Neural tube defect in severe vitamin B12 deficiency	112
Case 5-6 Child treated and mother diagnosed	116
Case 5-7 Vitamin B12 deficiency in the Mason family.....	118
Case 5-8 Mother champions the case for her daughters	119
Case 5-9 Inherited vitamin B12 deficiency in the Storey family	120
Case 5-10 The inheritance of deficiency across four generations	121
Case 6-1 SACD - not stroke or MS (Chelsea Chicken)	142
Case 6-2 Left oculomotor nerve paralysis.....	143
Case 6-3 “Incurable with various symptoms” – Brenda Berry.....	143
Case 6-4 MS/SACD - three different presentations in same family.....	146
Case 6-5 MS-like presentation - Wendy Imms.....	148
Case 6-6 When it’s hard to go on - Linda Skilton	148
Case 6-7 Lhermitte's Sign - shooting pain.....	152
Case 6-8 Glossopharyngeal nerve pathology causing persistent cough.....	152
Case 7-1 Vitamin B12 deficiency with two autoimmune conditions	168
Case 7-2 Common immunodeficiency	169
Case 7-3 Importance of timely intervention in hypoadrenalism	172
Case 7-4 End-stage Addisonian Crisis presentation.....	176
Case 7-5 Classic case of APS: Angela Abraham	184

Case 7-6 Undiagnosed APS with hypoadrenalism leading to irreversible damage: Leanne Walker (née Chandy)	187
Case 7-7 Rapid results from treatment – vitamin B12 deficiency and hypoadrenalism	191
Case 8-1 Neuropsychiatric symptoms prominent	200

List of Charts

Charts prepared by the authors (Dr Chandy and Hugo Minney) from patient data at Shinwell Medical Practice

Chart 3-1 Frequency of B12 injections required	76
Chart 3-2 Effect of vitamin B12 recycling efficiency on frequency of injections	77
Chart 5-1 Glenise Mason, blood vitamin B12 and folate levels (note B12 supplementation only, folate follows B12 even without folate supplements).....	113
Chart 5-2 Patient A, blood vitamin B12 and folate levels (note B12 supplementation only, folate level follows B12 level)	114
Chart 7-1 Cortisol daily cycle (circadian rhythm) in a healthy human	171
Chart 7-2 Results of multiple SSTs on a single patient.....	185
Chart 7-3 Short Synacthen Test - hypoadrenal	187
Chart 7-4 Early morning cortisol with hypoadrenalism	188

List of Boxes

Box i-1 Dr Joseph Chandy: Timeline.....	20
Box i-2 Presentations to raise awareness of B12 deficiency	21
Box 2-1 Document: Letter from Professor A. D. Smith	62
Box 3-1 Extracts from the Shinwell Medical Practice Patient Survey 2008-9.....	84
Box 7-1 Types of APS.....	167
Box 7-2 Hypoadrenalism questionnaire.....	179
Box 7-3 JFK and Addison’s disease.....	192
